

# Point Expander

Designed to expand the the input/output capability of the I/O Flex 6126, the I/O Flex Ex8160 provides I/O Flex 6126 users with an additional 8 digital outputs and 16 inputs.

## **Key Features and Benefits**

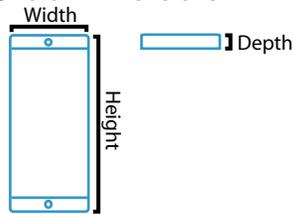

- Provides the I/O Flex 6126 with an I/O point count of up to 48 I/O points.
- Removable screw terminals for I/O connections. Allows for easy field replacement of hardware without any rewiring.
- Versatile mounting options: may be mounted directly onto the I/O Flex 6126 enclosure or separately within the mounting enclosure.
- LED indicators of power, output, running, and error status, providing a quick overview of module status.

I/O Flex Ex8160

# I/O Flex Ex8160 Specifications

<b>Power</b>	AC rating: 24VAC $\pm$ 10% (21.6VAC to 26.4VAC), 50 to 60Hz, 13VA, 0.54A. DC rating: 26Vdc, 0.12A, 3W.
<b>Physical</b>	Rugged aluminum housing, removable screw terminals with custom silk-screening available.
<b>Environmental Operating Range</b>	-20° to 140°F (-29° to 60°C); 10 to 95% relative humidity, non-condensing.
<b>Binary Outputs</b>	Eight relay outputs rated up to 5A at 250VAC, configured as dry contact, normally open.
<b>Inputs</b>	Sixteen inputs. DIs 1 through 8 are digital only; UIs 1 through 8 are analog inputs, jumper selectable between thermistor/dry contact and 0 - 5Vdc. The eight digital inputs support pulse counting up to 10 Hertz.
<b>Status Indication</b>	Visual (LED) status of power, outputs, running, and errors.
<b>Protection</b>	Surge and transient protection circuitry for power and communications..
<b>Listed by:</b>	FCC, IEC, UL, and CE listed.
<b>Weight</b>	10.8 ounces

**Overall Dimensions** 3" (width) by 10-1/2" (height) by 1-1/2" (recommended panel depth).  
76mm (width) by 269mm (height) by 38mm (recommended panel depth).

**Mounting Hole Dimensions** 1-1/2" from left (width) by 9 3/8" (height)  
38mm width by 238mm height
